## UNIONE VELICA MACCAGNO

Founded in 1977, it is one of the northernmost sailing clubs on Lake Maggiore. Thanks to the mountains that create the "Canalone," the UVM benefits from constant winds: "Tramontana" in the morning and "Inverna" in the afternoon, creating an ideal racing area for all types of sailing boats. The club's management is based on the voluntary collaboration of long-standing members.

### Activities:

- UVM organizes races of international importance every year, thanks to Maccagno's geographical position, which encourages the participation of European crews.
- UVM is a founding member, along with other clubs on the lake, of the Verbano Lake Championship both in dinghies and offshore classes, and it organizes the "Canalone" regatta every 15th of August, now in its 58th edition.
- UVM is an FIV (Italian Sailing Federation) sailing school and offers courses for kids, young and adults on dinghies or offshore boats. It owns 16 dinghies, including Bug, O'Pen Skiff, Laser, ISO, and two 25' FUN.
- The National Rescue Society has recognized UVM with the "Crest" for its collaborative activities and rescue interventions in the water. The club actively participates every year in supporting the open water swimming race that takes place between Maccagno and the castles of Cannero.
- UVM signed the "Carta Smeralda" (Emerald Charter) to reduce the use of single-use plastic at the club since 2014 when it began using biodegradable plates, glasses, and cutlery.

# What we offer

## CLUB HOUSE: 500m<sup>2</sup>

# Tourism and culture in Maccagno

**Maccagno** represents one of the earliest inhabited places in the Verbano lake, and its millennial history has left some significant traces in the urban fabric that make this town fascinating and interesting.

The village was divided between 'Superiore' (Upper) and 'Inferiore' (Lower) by the Giona stream, creating two almost autonomous neighborhoods within the same town.

The most characteristic area is the 'Contrada Maggiore' in the Lower Village; here, the houses are closely attached to each other, separated only by narrow alleys. Overlooking this district are the Imperial Tower and the small sanctuary of the Madonna della Punta, which faces the lake.

The Upper Village, where the Town Hall is located, is more modern but, in return, it enjoys a unique panorama that is simply breathtaking. Noteworthy is the 'Corte Branca,' with its elegant colonnade, representing the most expressive historical building in the area.

MUSEUM of MODERN ART  
«PARISI VALLE»
